#### STATE, CITY AND CORPORATION FINANCES.

#### EXPLANATION OF STOCK AND BOND TABLES

- 1. Prices of the most Active Stocks and Bonds are given in the "Bank, ers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.
- 2. Government Securities, with full information in regard to each issue, the periods of interest payment, alze or denomination of honds, and numerous other details, are given in the U.S. Debt statement published in THE CHRONICLE on the first of each month.
- 3. City Bonds, and Bank, Insurance, City Batiroad and Gas Stocks, with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.
- 4. The Complete Tables of State Sceurities, City Sceurities, and Railroad and Miscellaneous Stocks and Honds will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of The Chronicle.

# STATE SECURITIES, CITY SECURITIES, RAILROAD STOCK AND BOND LIST, CANAL AND MISCEL-LANEOUS STOCK AND HOND LIST.

[Entered seconding to Act of Congress, in the year 1873, by William B. Dana & Co., in the office of the Librarian of Congress, Washington, D.C.]

The usual tables published in the CHRONICLE on the last Saturday of each month are given on the following pages. A large number of important reports have been published during the month, and the pages thereof are duly referred to in the remarks opposite to the bond statement of each state, city or company in the tables. Among other important reports will be found that of the Pennsylvania Company, the associate corporation of the Pennsylvania Railroad, which has the management of its leased lines west of Pittsburg.

In consequence of a pressure upon our columns since the first of January for the publication of annual reports and other lm portant railroad information, it has not been practicable to give the same remarks as formerly in regard to investment securities; but it is our intention to resume the subject hereafter, and give from week to week such details of information concerning investment stocks and bonds, and such brief comments on the facts ascertained in regard to them as may be of practical service to our readers.

#### CANAL AND MISCELLANEOUS STOCK AND BOND LIST.

[Entered secording to act of Congress, in the year SM. by WM. B. DANA & Co., in the office of the Librarian of Congress, Washington, D. C.]

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, April 25, 1873.

Higher prices, and in some cases activity, have been the leading features of trade in domestic products during the past week, but mere especially in those for which there is an export demand. The active realizing process, which a stringent money market has enforced for some weeks, has been followed by a reaction, and in enforced for some weeks, has been followed by a reaction, and in staples, where it was least expected—Indian corn, for example. The comparatively rare event of a simultaneous advance in cotton, breadstuffs, provisions, uaval stores and petroleum has been witnessed. It may be attributed in part to speculation, but legitimate influences have contributed. In foreign merchandise, the course of affairs has been less favorable, though not without redeeming features. The complete resumption of the navigation of the Great Lakes may now be daily expected, but it is stated that the Erie Canal will not be open till the 12th of May.

There has been some speculative excitement in pork and lard.

There has been some speculative excitement in pork and lard, with large sales for immediate and future delivery, and prices have with large sales for immediate and future delivery, and prices have materially advanced, though latterly showing less buoyancy. It pork there were reports of a "corner" against sellers for April, but in lard a strong speculative movement was indicated. Box meats have been quiet. The following comparisons of the hog packing in the Western states are collated from the report of S. D. Maxwell, Superintendent of the Cincinnati Chamber of Commerce:

Baltimore 346,000 328,294

Total 3.459,925 2.612,850
Increase 817,075

Pork has continued to advance, and there has been a pretty good business at times. New mess has sold at \$20 on the spot, \$19 50 for May, \$19 70 for June, and \$19 75 for July; Western prime mess has been quoted at \$18@18 50, and extra prime at \$15 50. Lard has ruled decidedly higher on the spot and for future, and there has been a good degree of activity noticeable; prime Western has sold on the spot at 9½c, for May delivery at 9½, for June at 10½c, for July at 10½c, and for August at 10%c. Bacoon has been firm, but rather quiet; long clear has sold at 9½c, for early delivery, and long and short clear together at 10c, while some business in city long clear for the first half of May has been reported at 10c. Cut meats have been generally quiet; dry salted shoulders for short delivery have sold at 7½c, and dry salted wams at 11½. Beef has been in good steady demand for new at unchanged prices, and there has also been some mand for new at unchanged prices, and there has also been some inquiry for old which has sold at \$5 25 for mess. Butter has been in pretty good demand, but increasing receipts of new have Butter has caused a decline in prices. Cheese has been weak with a fair demand at the lower prices. To day there was a decided pause, little was done in pork, and lard receded \(\frac{1}{2}\)\(\frac{1}{2}\)\(\text{c. under sales to realize profits from the late advance, and prime Western closed at 9\)\(\frac{1}{2}\)\(\frac{1}{2}\)\(\text{c. spot, April and May;}\)\(\frac{1}{2}\)\(\frac{1}{2}\)\(\text{(00 for June, and 10\)\(\frac{1}{2}\)\(\text{c. for July.}\)
Short clear bacon sold at 10\(\frac{1}{2}\)\(\text{c. for May and June.}\) Cheese lower, with sales of fair to choice testings for expect at 12\)\(\text{(0156}\) with sales of fair to choice factories for export at 12@15c.

Hides lower and more active, at 25c gold for dry Buenos Ayres.

Metals have been quiet.

There has been a material decline in ocean freights, especially by the British steamers, which may be attributed to the increased extent of room on the berth. Liverpool and Glasgow have within a few days taken large quantities of grain at 6@64d. for within a few days taken large quantities of grain at 0@0fd. for corn, and 6½@6½d. for wheat; and rates for cotton to Liverpool have declined to 5-16@§d, by sail, and §@7-16d. by steam, with bacon at 40s. and cheese at 50s. Grain charters to Cork for orders have been at 7s., and to Plymouth direct, 6s. 6d. Petroleum charters have been quiet till yesterday, when a number were made, including an American ship to Havre, with crude, at 5s. 6d., a British bark with refined, to the continent direct, at 4s. 3d., and a North German bark with refined to Bremen at 4s. 6d. To-day the Liverpool steamers took corn at 6d. and

48. 3d., and a North German bark with renned to Bremen at 4s. 6d. To-day the Liverpool steamers took corn at 6d. and cheese 45s., showing weakness.

Refined petroleum has advanced to 20½@20½c. on advices of reduced stocks in the German markets; a large business iu naphtha has beeu reported this week at 10½@10½c.; crude petroleum quoted at 10c. in bulk; strained rosin was down to \$3 20, but recovered and closed firm at \$3 30@3 35. Spirits turpentine sold down to 53c., but recovered to 55c. Tallow in better demand at 8 15.16d@9c. for prime. Whiskey declined to 90½@90½c. Wool steady, with more activity at private sale, including a large line of California Fall clip in the range of 18@23c.; domestic clip at 50@53c. Lard oil advanced to 78c. for prime Winter.

Tobacco has been quiet. Of Kentucky leaf the sales have been only about 900 hhds.; prices firm and the demand fair; lugs 7@8c.; leaf 9@14c. Seed leaf also quiet; sales include: crop of 1870, 200 cases sundries at 9@10c.; crop of 1871, 100 cases sundries, 12@20c.; 100 cases Massachusetts and Connecticut at 22@50c., and 232 cases Pennsylvania on private terms. Spanish tobacco is lower, leading to rather more business; sales 500 bales Havana at 77½c. @\$1 02½, currency, duty paid,

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show total vatues, including the value of all other articles besides

### COTTON.

FRIDAY, P. M., April 25, 1873. By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, April 25. It appears that the total receipts for the seven days have reached 45,373 bales against 55,830 bales last week, 48,945 bales the prereceipts since the first of September, 1872, 3,209,898 oales against 2,564,652 bales for the same period of 1871-72, showing an increase since September 1, 1872, of 645,246 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

| Received this week at- | 1873.                   | 1872.                 | 1871.                   | 1870.                   | 1969.                   | 1868.                   |

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 31,901 bales, while the atocks to-night 160,480 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. I to April 18, the latest mail dates.

The market the past week for cotton on the spot opened with an upward tendency, and on Monday quotations were advanced ic.; but the business continued comparatively small, owing in part to the undesirableness of much of the stock offering. We again hear complaints that the better grades are scarce and held above the average of the market, while good ordinary and not salable at the official quotations. Late Thursday, Liverpool was reported at a partial decline, and this was immediately felt in our market, because it was rather unexpected. To-day there was a fair export demand, but the tone was quiet, there being no change in the quotations. For future delivery the business has not been as large as heretofore, and notwithstanding smaller receipts, firm gold and an easier money market, there has been some weakness observable for the later months. The first business for September was done on Monday at 18½c., but on Wednesday, after change, there was a sale at 18c., with July 3-16c. and August ½c. below the previous day. On Thursday, however, the two latter months partially recovered, but again closed weak, especially after 'cbange. To-day there was only a moderate business, and the transactions mainly for May; an advance in October contracts will, however, be noted, also a renewal of exchanges in contracts to a considerable overent. The privace for turned less renewal developmentally accounted were the index partially owing in part to the undesirableness of much of the stock offering. mainly for May; an advance in October contracts will, however, be noted, also a renewal of exchanges in contracts to a considerable extent. The prices for futures last reported were (basis low middling) 18\frac{2}c. for April, 18 27-32c. for May, 19 3-16c. for June, 19 5-16c. for July, 19\frac{1}{2}c. for August, and 17 25-32c. for October. The total sales of this description for the week are \$1,350 bales, including —— tree on board. For immediate delivery the total sales foet up this week 7,341 bales, including 4,871 for export, 2,288 for consumption, 127 for speculation, and 55 in transit. Of the above 491 bales were to arrive. The following are the closing quotations:

WEATHER REPORTS BY TELEGRAPH.—There has been con tinued cold weather in the South the past week, and every one of tinued cold weather in the South the past week, and every one of our telegrams state that there has been no rain. Many of them refer to the frost as having destroyed the young cotton, and made replanting necessary in some districts. The injury by frost in Texas is believed to be much less than at first reported, though replanting to some extent will have to be done. Some of the country tributary to New Orleans will also have to be replanted. There has been no rain at New Orleans this week. Our Mobile dispatch says that it has been too cold there, but no rain; that replanting in some districts will be, hecepsary. At Selma there has been no rain but it has become exceedingly dry and dusty replanting in some districts will be necessary. At Selma there has been no rain, but it has become exceedingly dry and dusty. The Macon and Columbus telegrams each say no rain; at Columbus it is quite cold to-day. At Charleston it has also been cold and dry; the frost will make replanting necessary in some districts. There has been no rain at Memphis; the weather is so cold and dry that the seed does not germinate; planting is, however, making good progress. At Nashville the first part of the week was pleasant, but the latter part has been very cold; no rain. Thermometer at Memphis has averaged 61; Macon and Columbus, 68; Mobile, 66, and Selma 70.

BGMBAY CROP.—The excellent promise of an increased crop in India this year, of which we published the evidence early in the season, is being fully realized in the large movement now in progress. According to our cable dispatch, the receipts and exports each week since the first of March have been as follows:

From the foregoing it would appear that compared with last year there is a decrease this year in the week's shipments from Bombay to all of Europe of 19,000 bales, and that the total movement since Jan. 1 shows a decrease in shipments of 126,000 bales compared with the corresponding period of 1872.

GUNNY BAGS BAGGING, ETC.—During the recent flurry in the money market some round lots of bagging were sold, both here and in Boston, at 12% cash. Since then we note a better feeling among holders and more inquiry from buyers. We quote prices

13c cash for immediate, and 141@15c for summer delivery. sales are reported in bags the past week, the quoted price being 15@15½c according to weights. Sales of butts have been made all the way from 2@2.16c cash and 2½c time. Some 1,500 bales were the way from 262-10c cash and 2½c time. Some 1,500 bales were sold the last few days at 2c cash, and small lots of 100 to 150 bales at 2 1-16@2½c. There seems to be a fair inquiry and a little disposition among holders to hold for better prices.

VISIBLE SUPPLY OF COTTON MADE UP BY CABLE AND TELEGRAPH.—By cable we have to night the stocks at the different European ports, the India cotton affoat for all of Europe, and the

American afloat for each port as given below. From figures thus received, we have prepared the following table, showing the quantity of cotton in sight at this date (April 25) of each of the

| two past sessons:                      | 1873.   | 1872.           |
|----------------------------------------|---------|-----------------|
| Stock in Liverpool bales.              | 692,000 | 782,00 <b>0</b> |

Below we give all news received, during the week, of disasters to vessels carrying cotton from any port of the United States:

AMALIA, from New Orleans via Queenstown, before reported foundered, was hound to Liverpool, and sunk between Holyhead and the Skerries at 5:30 A.M. April 3, after collision with steamer Mary Anstin.

WM. F. CUSHING.—The loose cotton in the hold of the schr Wm. F. Cushing, which had finished discharging a cargo of cotton at Fall River, caught fire in the hold April 17, while lying alongside the wharf; some of the cotton on the dock caught from sparks of the engine and was slightly damaged.

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 117½ and 118½, and the close was 117½. Foreign Exchange market is firm. The following were the last quotations: London bankers', long, 108½@108½; short, 109½@109½, and Commercial, 107½@108. Freights closed at ½d.@7-16d. by steam and 5-16d.@§d. by sail to Liverpool, 1½@1½c. gold by steam and 1c. by sail to Havre, and §d. by steam to Hamburg. GOLD, EXCHANGE AND FREIGHTS .- Gold has fluctuated

By Telegraph from Liverpool.—
Liverpool, April 25-5 P. M.—The market opened quiet and closed dull to-day, with sales footing up 10,000 bales, including 2,000 bales for export and speculation. The sales of the week have been 69,000 bales, of which 7,000 bales were taken for export and 4,000 bales on speculation. The stock in port is 692,000 bales, of which 313,000 bales are American. The stock of cotton at sea, bound to this port is 541,000 bales of which 226,000 bales are American.

#### BREADSTUFFS.

FRIDAY P. M., April 25, 1873.

There has been a decided improvement and increased activity in the shipping grades of State and Western flours during the past week. The export demand has been quite active, and sev eral thousand bbls, have been taken, prices showing an advance of 10@15c. per bbl., and in some cases more. The principal demand has been for Great Britain and the West Indies, but the British Provinces and South America have also been buyers. In superfine the business was mainly at \$5 85@6 25, in common Western extras \$6 85@7 25, in extra State \$7 25@7 40, and in city shipping extras from Spring wheat \$7 45@7 75; but since Monday nothing could be had at the inside prices; in fact, very few supers at \$6 or extrus at \$7. Receipts, however, [continue liberal by rail, and in the desire of receivers to realize promptly, the market has latterly been barely steady at the advance. Rye flour and corn meal have been more active. To-day the market was quiet.

There has been, also, a decided advance in spring wheat; greater, in proportion, than in the corresponding grades of flour. The demand has been quite as urgent, the supply less liberal, and the course of ocean freights more favorable. The export purchases began at \$1 58@\$1 60 for No. 2 Chicago, and \$1 63@ \$1 65 for No. 2 Milwaukee, but yesterday there was a large business at \$1 62@\$1 651 for No. 2 Chicago, and \$1 67@\$1 70 for No. 2 Milwaukee; with some business, also, at \$1 35@\$1 45 for rejected spring, and \$1 53@\$1 60 for No. 3 do., showing an advance of about 5c. per bushel. Early in the week 200,000 bush. No. 2 Milwaukec sold for arrival in June at \$1 56@\$1 58, closing with the latter price bid. Winter wheats, red, amber, and white, have been very quiet, but are held higher, and we revise quota tions. Advices from the Great Lakes have been favorable to an early resumption of navigation, and it is stated that the Erie Canal will be open on the 12th of May. To-day there was a moderate business at \$1 40@\$1 45 for rejected epring, \$1 58@ \$1 60 for No. 3 do., and \$1 62@\$1 63 for low No. 2, closing somewhat unsettled.

A report of the Agricultural Bureau respecting the condition of the growing crop of Winter wheat was favorable from Now Jersey, Pennsylvania, Ohio, Michigan, Maryland, Virginia and California; variable from Illinois, Indiana, Kentucky, Missouri and Kansas, and unfavorable from the Northern States-but on the whole very fair. Our private advices report the sowing of Spring wheat two weeks late; in the Northwest deep snow fell upon the newly harrowed fields, but apparently without serious injury; and in fact there is nothing as yet to excite any apprehension that the next crop of wheat will be otherwise than a full one.

Corn has also been buoyant. In view of the reduced stocks, small current receipts, and the probable delay in the receipt of supplies by canal, holders have stendily advauced prices. Parties having freight-room engaged have been compelled to buy, while a smart decline in the rates of freight has enabled other shippers to compete with them. Old Western mixed steadily advanced to 67c in store, while new sold at 68½c affeat, with the same price for Jersey yellow, closing yesterday with a further advance asked. It is supposed that the great advance in swine will cause some corn to be fed during the spring months, and thus the deliveries at the principal Western markets materially reduced, while the demand for export shows an unexpected activity for this stage of the season. For June delivery there has been some business, at 64c for Western mixed, understood to be on Western account. To-day there was a limited business in old Western mixed, 678,668c in etc. mixed, 674@68c in store.

Rye has been in better demand. Yesterday a boat load of Western was taken for the Continent at something over 90c., and to-day another at 90c. in store.

Barley has remained dull and depressed. Yesterday some business was done at 90c.@\$1 for Western, and \$1 25@1 27 for Canadian. Canada peas scarce and higher.

Onts have been without important feature, and the business nite moderate. Today, however, there was an advance of ic. quite moderate. and more activity.

The following are closing quotations;

#### GROCERIES.

FRIDAY EVENING, April 25, 1873.

The trade has been restricted by the continued stringency in the money market, but the wants of consumers are becoming rather more important, and retailers are taking out fair amounts in the aggregate, although restricting their purchases to about actual requirements. The feeling in the tea market is rather more encouraged, but prices remain as last quoted. Molasses is easier for refining qualities, but grocery grades are strong and domestic is higher. Sugar is weak and quotably lower. Coffee is rather quiet but a shade higher.

TEA. The general market has assumed a more cheerful aspect during the past week, and the outlook really presents some encouragement to holders although there are no indications of an immediate improvement. The country trade are prevented from buying very heavily at the moment by the extreme stringency of money throughout the interior, but there has been more looking around since our last report, and a fair business, all things considered, has been done. Johbers are running pretty close, and only take ont invoices as their stocks become so reduced that it is necessary to replenish. The fact has become established that atocks to the hands of both jobbers and retailers are nnusually light, and this condition of affairs leads helders to hope for a stiffer market in the future, though there is no prospect of any material enhancement of values. The current wants of our local trade, and of country dealers to a considerable extent, are supplied by the anction sales, which are frequent, although few large and desirable offerings are made. There is enough stock offered in this way, however, to bridge over the pressing require_ ments of the trade, and buyers refrain from making extensive purchases. The arrivals for the week have been chiefly of Greens, and are not excessive. Oolongs continue somewhat soft, but these as well as the other grades are held more steadily than when last reported. Prices are without change. The sales since our last are 7,200 half chests Greens, 6,325 do. Japans, and about 1,000 do. Oolongs, all at private sale.

Imports at this port the past week have included 24,537 lbs. Black, 707,034 o. Green and 30,500 do. Japan per "Lady Elizabeth," from Shanghai. The addrect importations have included 5,559 pkgs. by steamer and 949 by rail

do. Green and 30,000 april 10 indirect importations have included 5,559 pkgs. by steamer and 949 by rail overland.

The following table shows the imports of Tea into the United States from January 1 to date, in 1873 and 1872:

Black. 9,254,493 8,372,272 Green. 11,207,115 11,336,439 Atlantic ports, 1873...lba. Atlantic ports, 1872.....

The indirect receipts at New York, principally overland receipts from San Francisco, have been 43,717 pkgs. since January 1, against 60,766 last year. Imports at San Francisco from Jan. 1 to April 1, were 135,345 lbs. of China, 702,170 lbs. of Japan and 200 lbs. of Java tea.

#### COFFEE.

Sales are still restricted by the stringency of money, and this cause alone seems to be operating ngainst a good trade. Holders of Rio coffee find nothing unfavorable in the situation, and are not disposed to press their stock upon the market except at full prices, especially as the current pur-chases by the trade indicate a want for coffee in the interior, and with the running sales enough in excess of the receipts to prevent any heavy accumulation of stock, prices are advanced at the close. Nothing has been received from Rio since our last report. The feeling in the market for pale coffees is very strong, and no lots are offering below former values, while, on the contrary, there has been a marked improvement in some grades, which are pretty well sold out of stock. The chief article of supply at the moment is Laguayra, which is held in stock to the amount of about 15,000 bags. Johbers are ready bnyers of Maracaibo in round lots at 181/2020c., and holders are not free sellers even at these figures. Porto Rico and Costa Rica grades are up 1/2c., and the range in Mexican is shortened by the reduction of stock, which has left very range in Mexican is shortened by the reduction of stock, which has left very little-low-priced coffee in the market. Javas are strong, and prices are a shade better than at the date of our last report. The sales of all descriptions have been 4,846 bags Rio, ex "South America," a part at 17½c.; 4,114 do. ex "Alice," 2,871 do. ex "Harriet Brewster;" 2,268 do. Santos, ex "Catharina;" 2,865 do. do., ex "Kolding;" 400 do. Rio, ex "Thetis;" 205 do., ex "P. C. Warwick," all here. At Baltimore 5,000 Rio, ex "Cricket," 4,000 ex "Oscar," 17½c.; 2,000 ex "V. Dare," 18c. At New Orleans 780 Rio ex "Pepita," and 1,533 ex "Eros." Sales have also been made here of 1,000 mata Java, ex "Nederland and Orange:" 2,162 bags Lagnayra, ex sundry vessels," sold at "Nederland and Orange;" 2,162 bags Laguayra, ex sundry vessels," sold at 18c. to 184c.; 2,005 do. Costa Rica, 998 do. Ceylon, 1,300 do. Mexican, 90 do-Maracaibo, sold in lots for consumption within our range, and 2,495 do. St. Domingo, shipped to Hamburg by first hands.

Imports the past week have included 8,230 bags Rio, per steamer "South America," 4,814 do. do. per "Alice," 4,508 do. do. per "Adeline and Mariaune;" 4,625 mats Java per "Menam;" 1,100 bags St. Domingo, per "Mary E. Nason," 200 do. do. per "M. E. Higgins," and 6,481 do sundries.

#### SUGAR.

The arrivals continue liberal, although not in excess of the usual receipts at this period of the year. While funds are close, receivers for the most part prefer to sell their stocks, and this disposition to press sales has had the effect of bearing the market. A few holders decline to sell at the low prices, and are storing their stock, but these are exceptional cases. The market for Cuba Muscovados has eased off fully %c. Sales have been effected upon a basis of 7%@7%c. for fair to good refining, but it is said that the goods were heavy, and that strictly good refining cannot be had below 7%c. The general tone is somewhat steadler at the close, though the demand is not improving perceptibly. The market for refined sugars is still weak, and prices continue to favor the buyers. The supply of crushed is not excessive, but other grades are in full supply, and there is no stability to prices. The revised range of quotations will be found in our price list. Sales have been effected since our last of 3,059 hhds. Cuba, 7%@7%c.; 2,061 do. Centrifugal, 8%@9%c.; 7,332 hoxes Clayed and Centrifugal, 7%@9%c.; 974 hhds. Porto Rico, 7%@8%c.; 119 hoxes Havana on private terms: 32 hhds. clarified Demerara, 10c.; 176 do Martinique, 7%c.; 211 hhds. and 38 tes. Trinidad, P. S., on private terms.

Imports at New York and stock in first hands April 2i, were as follows:

The arrivals of refining molasses this week have increased the stock somewhat, and with but little demand for these grades the market has been rathe drooping. The stock held by most of the refiners is ample for their current wants, and few goods are taken out by them in consequence. The supply of Cuba in first hands has increased to 5,642 hids., chiefly of refining quality, Prices are a shade easier in these grades, and the sales made during the week indicate a shrinkage in values of about 1@2c. The arrivals of Porto Rice are not liberal for this period of the year, and the supply accumulates slowly. The present stock is set down at 1.827 hids., and quotations continue as full as last reported. Very little English Islands stock is arriving, and prices are unchanged. The trade buy sparingly of these grades, especially domestic, the sale of which is restricted by the high prices. A stock of 3,000 hills, is still reported, and prices are rather hetter. Holders are asking 75@80c. for prime to choice, the latter price being insisted upon for choice qualities by holders. Syrups are quiet, and remain at about previous rates. The sales are 218 hids, and 20 tes. Cuba Muscovado, 31@33c; 122 hids, and 10 tes. grocery do, at 45c.; 190 hids. Porto Rico, in lots at 50@65c., and 350 bbls. domestic at 73@80c.

The receipts at New York, and stock in first hands April 24, were as follows:

### THE DRY GOODS TRADE.

FRIDAY, P. M., April 25, 1878.

Although the weather has been rather unfavorable for the active distribution of Spring goods, there has been a better jobbing trade durlog the past week, and considerable amounts of goods have been closed out of first hands. Collections are very backward, and dealers are not showing so much disposition to press goods upon buyers as they might were there less difficulty in getting payment upon bills previously contracted. At the same time there are many dealers who are disposed to offer some inducements to buyers for the purpose of closing out their stocks, and to effect this sales of some lines, chiefly of cotton goods, have been effected at prices below the quoted market range. This practice is not likely to be attended with the usual bad results of forcing more goods upon buyers than they have any use for, inasmuch as the closeness of funds everywhere has caused all classes of dealers to exercise more than ordinary caution in the matter of their purchases to prevent their stocks from running over what their requirements are likely to be; and few will be induced even by extreme concessions to anticipate their wants very largely. The steadily declining tendency of the raw mate* rial has the effect of leading huyers to look for lower prices, and the position of the market at the moment indicates a shrinkage in values before many months on many of the principal lines of goods.

Domestic Cotton Goods.—The sales of medium and standard weights and fine brown cottons continue to be on a fairly liberal scale, and the stock of these grades is run down to a point where holders have very little difficulty in sustaining prices. Jobbers who are disposed to offer concessions to buyers are for the most part selecting the lower grades of cottons upon which to break prices, and with very few exceptions the better qualities of goods are still quoted at about former rates. Bleached goods have experienced few changes, except in the lower grades, but the tone of the market is rather heavy and holdere are ready sellers at the current quotations. Supplies are not excessive, and when we remember the prolonged dulness it is somewhat surprising that agents have been able to keep their stocks so well reduced. The print market is only moderately active and prices lack buoyancy. Cloths are pretty woll down, and were the stock of prints to accumulate there would be likely to be a decline from the present rates. Colored cotton goods are in light request, but the market is steady upon all the leading lines. There has been an easier feeling in cotton drills, and prices are off a fraction on some makes. Light Summer dress fabrics have sold fairly at about previous prices and are steady.

DOMESTIC WOOLEN GOODS.-The general market for woolens remains very quiet, and fails to show any features of a particularly encouraging nature. Prices are down to a point which ought to be the bottom, and manufacturers feel this fact, but cannot count upon the stability of the market in the present extreme dulness of trade. Wool continues to tend downward, and is now so low that there is some margin for manufacturers if they can sell goods at the present range. There seems to be a fair market for good woolens, and the principal preventive of a generally satisfactory trade is the over supply of trashy stock, which is of itself almost unsalable, and exerts a depressing influence upon the better grades of goods. These remarks are chiefly applicable to fancy eassimeres, the other classes of heavy woolens being steadier though quiet. The clothing trade are purchasing very few heavy goods as yet, and prices for Fall and Winter stock are merely nominal. Flannels are flat and irregular. Dress fabrics are not active, but the business is sufficient to keep prices fairly steady.

Foreign Goods.—There seems to be a slight improvement in the demand for goods adapted exclusively to the Summer trade, but the market is without special animation. Lawns, piques and similar light dress and suiting labries are selling freely, while the heavier descriptions of dress goods are dull and rather heavy. White goods generally are in pretty liberal request, and are, for the most part, firmly held. Silks are only moderately active, dress silks being dull, while choice millinery lines show some animation and are firm. Imported woolens are slow of sale, and prices are somewhat depressed in sympathy with domestic goods. High gold and tight morely are restricting trade and unsettling values.

We names a few particulars of leading articles of domestic manufacture our prices quoted being those of leading jobbers;
